

# Welcome to the Inclusion Pavilion

Sponsored by

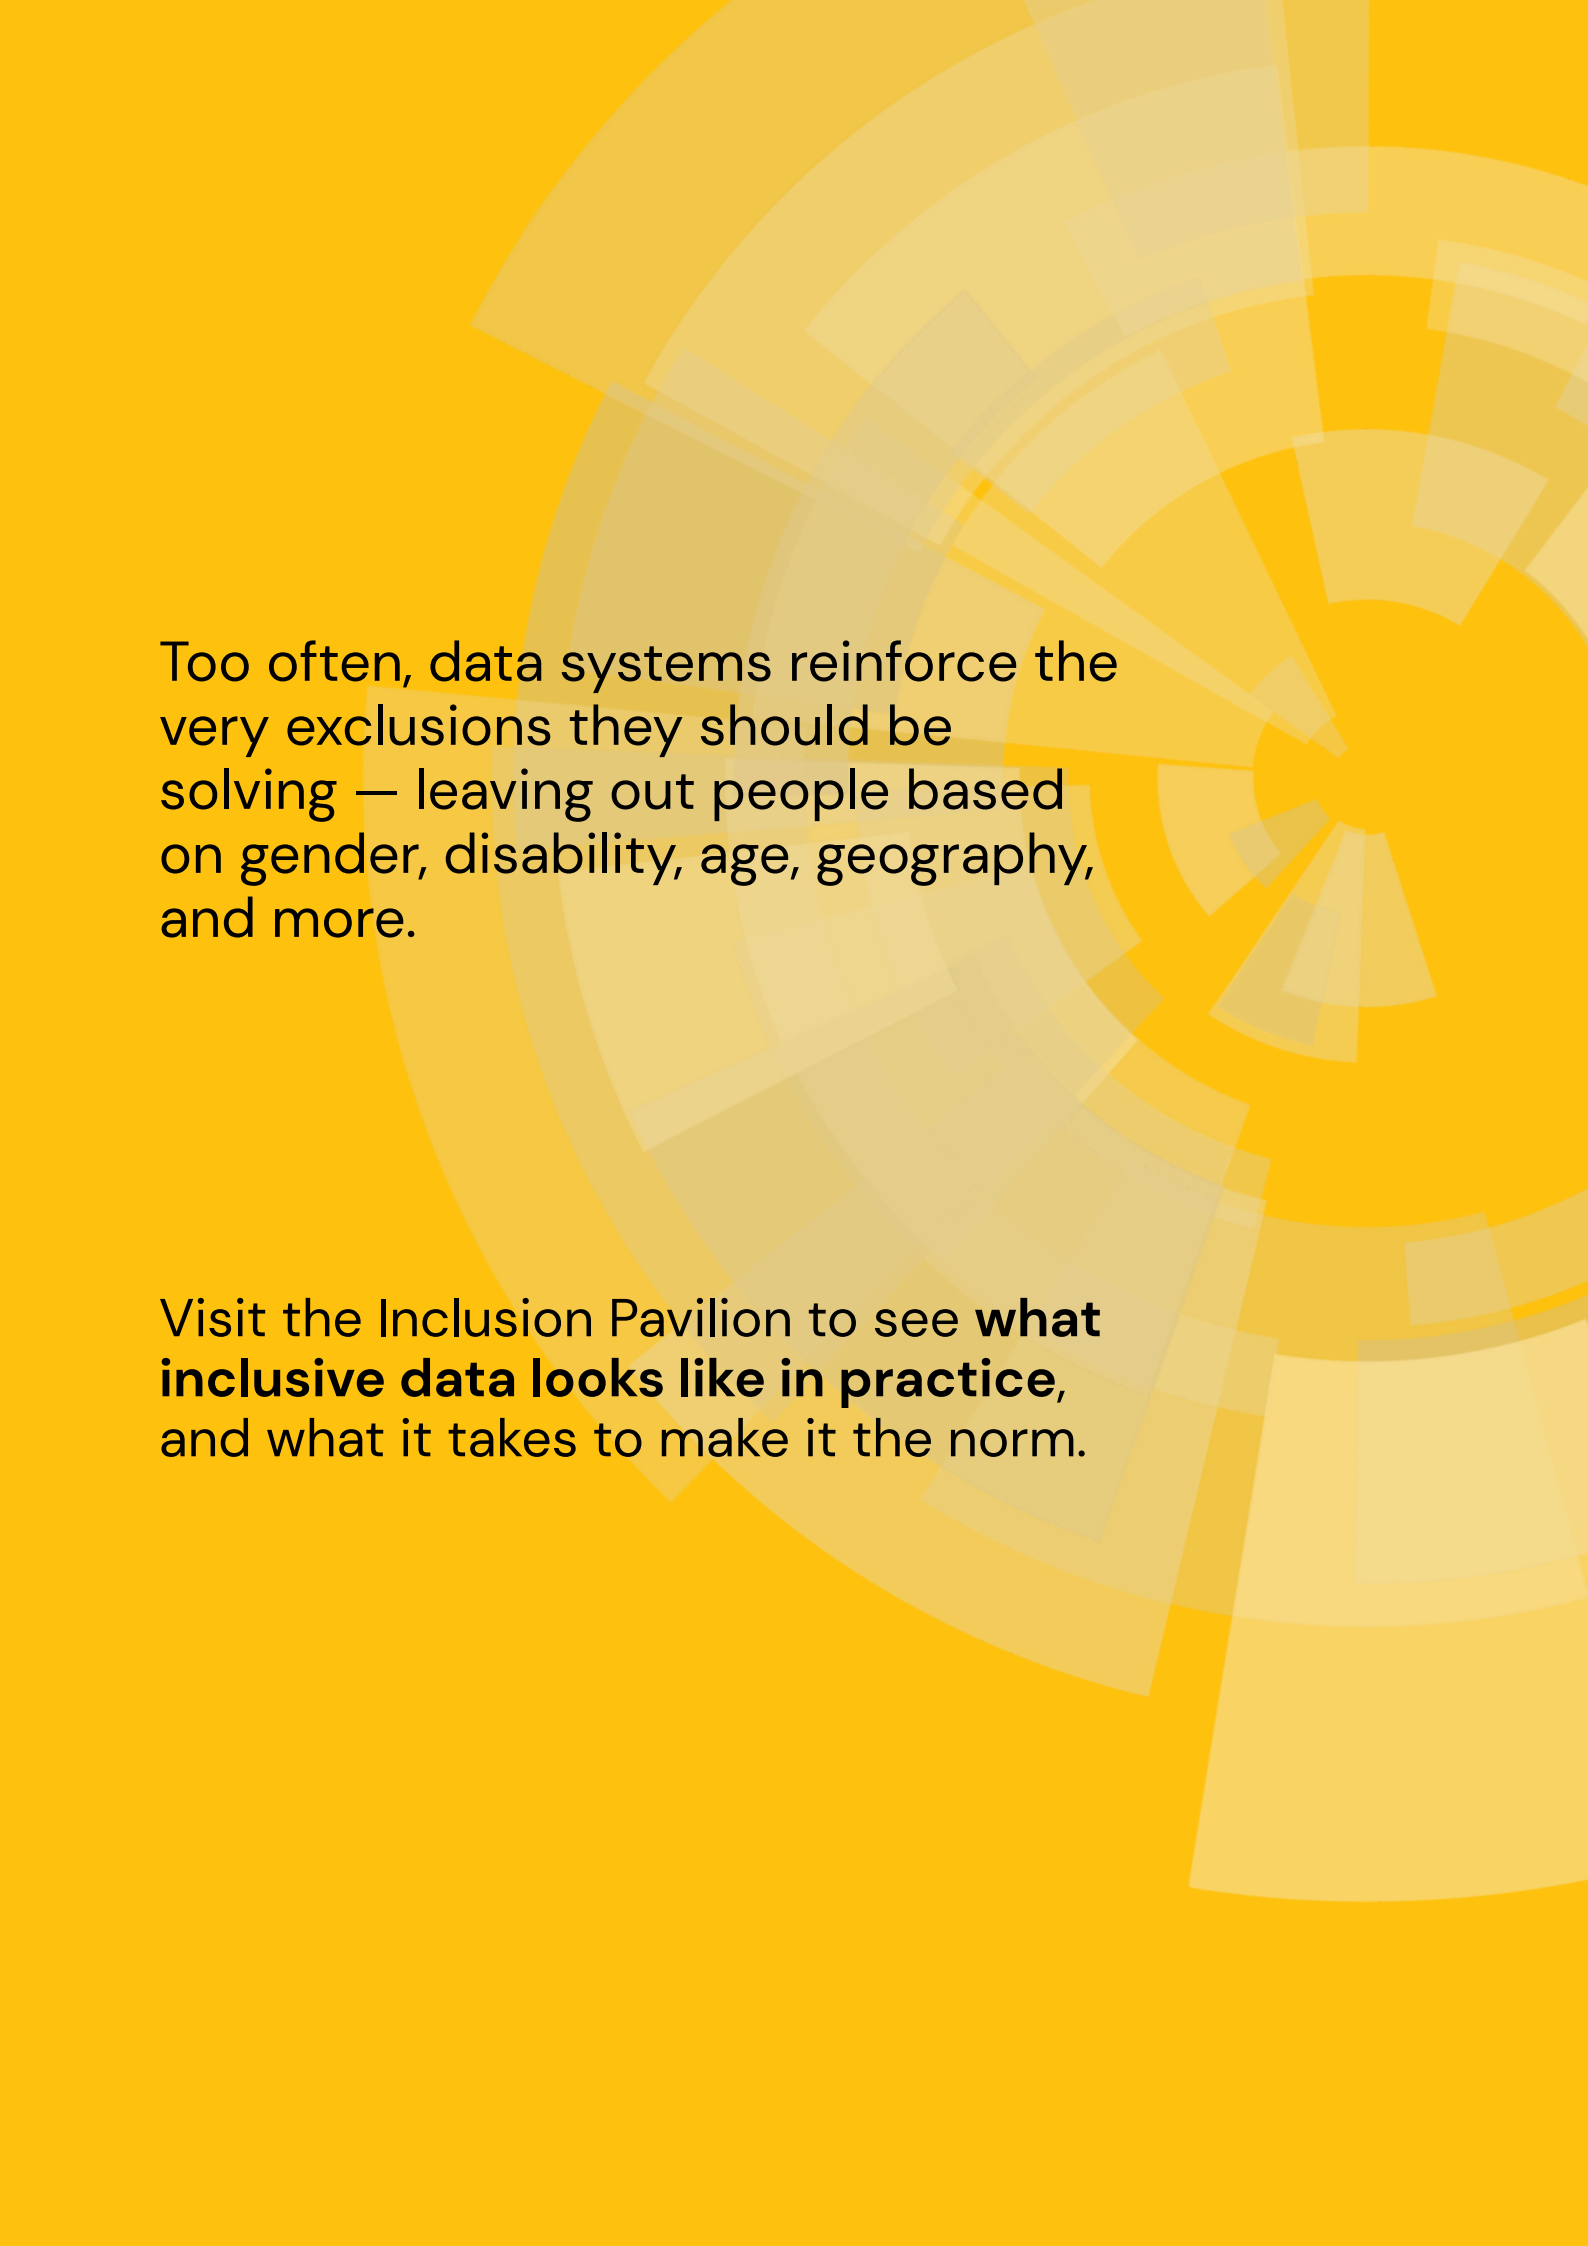

Implemented by  
**IWDA** INTERNATIONAL  
WOMEN'S  
DEVELOPMENT  
AGENCY

The **Inclusion Pavilion**, at the Global Data Festival and Kenya Space Expo & Conference is an open, interactive pavilion **connecting community voices, practical tools, and global movements.**

Too often, data systems reinforce the very exclusions they should be solving — leaving out people based on gender, disability, age, geography, and more.

Visit the Inclusion Pavilion to see **what inclusive data looks like in practice**, and what it takes to make it the norm.

# The Pavilion Partners

At Sightsavers, we start with sight, but we don't stop there. Our work helps to reduce poverty and inequality, addressing everything from disease elimination to disability rights, in more than 30 countries in Africa and Asia.

Inclusive data that is representative of all people, especially those who are often marginalised or underrepresented, is vital to our vision and mission. The collection, analysis and use of inclusive data drives better decisions and policies so that we can deliver equitable outcomes and enable people with disabilities to claim their rights.

“

Sightsavers is proud to be a co-sponsor of the Global Data Festival. It comes at a critical time for the development community to join forces and continue to push for greater accountability and to make their investments inclusive.

By working together, we can build data systems that ensure everyone counts and is counted.

**– Dom Haslam,  
Deputy CEO, Sightsavers**

# The Pavilion Partners

Equality Insights is a systems change program for inclusive data at the International Women's Development Agency. We provide world-leading survey tools that collect individual-level, gender-sensitive and inclusive data about poverty and inequality, providing important insights into the experiences of people who are often rendered invisible in poverty data. We drive solutions and innovations, raise awareness about gender data gaps, and advocate to ensure that everyone is visible in the data that affects their lives.

We are also the convenor of iCount, a global inclusive data coalition working to transform the data landscape and shift data systems to be actively inclusive.

“

When the world is in crisis, the instinct is often to preserve what exists. But investing in better, more inclusive data systems now means every future dollar and shilling spent on gender equality, disability, education or health policies and programming goes further, because decisions will be based on data that reflects the lives and experiences of everyone.

– Joanna Pradela,  
Director Equality  
Insights and Knowledge  
Translation, IWDA

# Get involved!

Visit the Pavilion to add your insights to the Missing Data Wall.

Join Flash Talks throughout the day from practitioners and Takeovers with guests sharing lived experiences and different approaches to inclusion.

Take part in Live Design Clinics for advice on how to make your survey, dataset, or project more inclusive.

Come and play a game, network and make connection, or just stop for a chat.

## Day 1: June 2

- 8:30 Pavilion opens!
- 10:30 Flash Talks by Data Values Advocates: Mirado, Furaha, and Erick
- 12:00 Networking on Inclusive Data
- 4:00 Opening Ceremony

## Day 2: June 3

- 8:00 Design Clinic by Equality Insights
- 8:30 FWWB and GROOTs Kenya Dialogue: Data for Financial Inclusion of Women
- 11:00 Takeover by the Make Inclusive Data the Norm Initiative (MIDN)
- 12:00 Flash Talks by MIDN countries: Ghana, Kenya, & Colombia
- 2:00 Takeover by Sightsavers: Partnerships and collaboration to advance inclusive data
- 3:15 Funding Inclusive Data in a Changing Landscape
- 4:00 Inclusive Data Charter (IDC) drop-in
- 4:30 Design Clinic led by Strathmore University

## Day 3: June 4

- 8:00 Takeover by the Global Partnership for Sustainable Development Data
- 8:30 Sub-national Data Dialogues by Open Institute
- 9:00 Sightsaver's Dialogue
- 11:00 Inclusive Data Charter Drop-in
- 11.30 Game Time: Count Me In
- 12:30 Pavilion Takeover by Sightsavers and Dialogue on Using Geographic Information Systems to Reach Marginalized Communities
- 2:00 Takeover by Equality Insights

## Day 4: June 5

8:00–close

Open space for discussions and networking
